# HAVE YOU EVER WONDERED WHAT YOUR FUTURE HOLDS...

in all the constantly changing, continuously innovating *worlds* of chemistry?

Where your career might take you? What's being done in various disciplines all over the world?  
And what developments could present real opportunities and solutions for you and your company?

If you've been wondering, you'll find your answers in CHEMTECH.

## AS A CHEMTECH READER, YOU'LL HAVE AN INCREDIBLE VISION...

of the changing world of chemistry. And it will show in your daily performance: your ability to draw knowledge from far outside your direct experience...to solve problems more creatively...and to focus on the most effective and productive solutions.

## LATELY, CHEMTECH READERS HAVE BEEN LOOKING INTO...

exciting new worlds of innovation, including the many uses, and significant advantages, of **micro-electrodes**. And the many benefits, from increased safety to decreased waste concerns, of **oxidizing with pure oxygen**.

They've explored how **GATT** and **NAFTA** will affect the chemical industry. And how Phase II of the **Clean Air Act** will affect their working environments.

They've learned how best to define **Total Quality Management**. And refine it to apply to *their* needs.

They've stood on the front lines of the fight against **antibiotic resistant bacteria**. And learned why the **glycopeptide group** may be our most promising new ally.

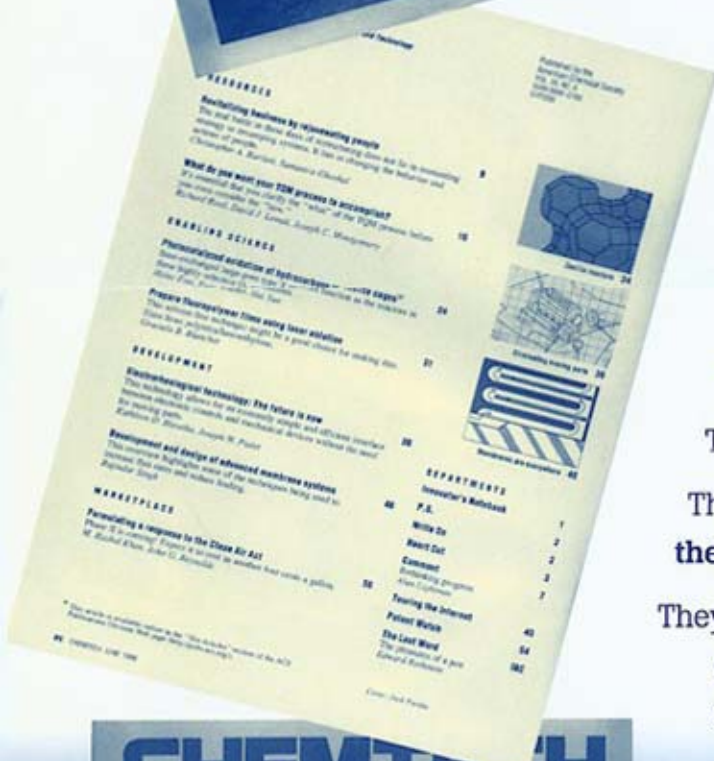

They've discovered **computer programs** to turn to for help in correlating viscosity, foam stability, detergency and dispersion ability. And explored how **color machine vision** is revolutionizing food color measurement—and creating exciting new opportunities for quality control.

AND YOU CAN'T IMAGINE WHAT THE FUTURE HOLDS FOR CHEMTECH READERS!

## SIGN UP FOR A YEAR OF NEW OPPORTUNITIES

Subscribe to CHEMTECH today. And you'll soon be receiving news of new chemical technologies...advances in other disciplines...research from far-off labs...and much more.

Over the next 12 months, CHEMTECH will give you a vision of a brighter, more rewarding career...guaranteed.

## CHEMTECH's Commitment

If CHEMTECH doesn't inform, motivate and challenge you in rewarding new ways, tell us. We will cancel your subscription and refund the cost of all remaining issues.
